HOLY WEEK

Rev. Dr. John C. Lentz, Pastor

WORDS FROM REV. DR. JOHN C. LENTZ, JR.

Praise the Lord!
Praise the Lord from heaven!
Praise God in the heights!
Psalm 148:1

Dear Beloved Members and Friends of Forest Hill Church,

I have decided to retire effective August 4, 2024.

The wise writer of Ecclesiastes knew well that there is a “time for every purpose under heaven.” I have come to realize that it is time for me to enter a new stage in my life. I believe also that it is time for you to cast a new vision and set a new path. The longer I stay the more I get in your way of discerning where God is leading you.

These years have flown by. I don't really feel old enough or grown up enough to retire. But time has a way of flowing on and pulling us all in its current. We have been through much together. You have loved and supported me, formed me, put up with me, trusted me, scolded me, forgiven me. We have laughed and cried together. You have seen my worst and my best.

Deanne and I arrived when we were 33 and 36 years old, respectively. Jack was 16 months old. Meg almost to be born. Sarah, still three years away. I will never forget the first time I stood in the narthex and looked through the windows into the sanctuary. I thought to myself: “This is so beautiful. I want to be a part of this family.” I delighted in the way that the clear sanctuary windows allowed us to look out into the world and the world to look in on us. I was inspired by your sense of identity and mission. You were willing to take risks. That, for you, faith was both an inner journey of spiritual growth and an outer journey of social transformation. I never believed that you would call me. And yet you did. Thank you. You have stayed true to your calling. The best years of our lives have been spent with you! Cleveland is home.

We will have the next five months to reminisce, to get things in order and to celebrate a magnificent journey together. No regrets, just rejoicing!

Love you very much,
~Pastor John

LENT 2024: JOURNEY TO JERUSALEM WILDERNESS, TEMPTATION AND CALL

As we continue our journey of faith, we will go through the wilderness and be tempted to lose sight of God's presence. Yet, as we continue, we will find a way, a truth and a life that gives glory to God and reveal to us our own calling and our belovedness as children of God.

Each Sunday we will explore the mystery of God's grace and be grounded in our identities as siblings of Jesus Christ. There will also be opportunities midweek throughout Lent to deepen our faith. Join us for the journey to Jerusalem.

Wednesday, February 21, March 6 and March 20

Supper and Contemplative Worship

6:00 – 7:00 p.m.

Life is busy with many distractions. Join us for a simple meal at 6:00 p.m. followed by a contemplative service in the Sanctuary at 6:30 p.m. Together we will pause from the journey and pray together, sing together, be in silence together, and seek God's presence together. Please sign up here: <https://fhc.breezechms.com/form/c82a0c21>.

Sunday, March 24

Wilderness Retreat

1-4pm in the Chapel

Lead by Sally Wile and Mary Ann Breisch. Through Scriptural stories, poetry, music and visual art, we will explore how the journey to Jerusalem inevitably finds us in the wilderness. We will reflect on how there, in the barrenness, God is revealed and we are transformed.

Thursday, March 28

Maundy Thursday

6:00 – 8:00 p.m.

Supper at 6:00 followed by a service of worship to prepare us for the crucifixion of Jesus. Passages from the gospels remind us of the final meal with his disciples, his agony in the garden, his trials before he offers himself to the cross. After each reading the lights are dimmed until the Christ Candle is removed from the sanctuary.

Friday, March 29

Good Friday Community Service @ St. Pauls Episcopal

12:00 noon – 3:00 p.m.

We join other Christians in our community at St. Pauls for a service of remembrance. Brief homilies are offered on the "7 last words of Christ." The choir of St. Pauls will sing an oratory, prayers will be offered and hymns will be sung. You may come and go as your schedule permits.

Thanks to Jennifer Blakeney, Sally Wile, Mary Ann Breisch, QinYing Tan, Leslie Clement and Valeria Stutz for their vision and spirit leadership.

Sunday morning Contemplative Practices ON HOLD in March

Please join us for Lenten soup suppers for shared meal and contemplation practice of Lectio Divina on March 6 & March 20.

We will resume our practices in April & May, the 2nd Sunday of each month at 9:30-10:15 in the chapel. The chapel will remain set up for anyone who wishes to go up for quiet reflection. Materials are available on the shelves as guides.

We have had a chance to share in centering prayer, guided meditation, Black theologian inspired practices and drumming. We hope you may take the opportunity in the future to be still and know... together in a quiet space where we can experience Christ amongst us.

Family, Youth, and Children Ministries

FHC Kids are Collecting SOCKS!

During the season of Lent, the children of Forest Hill Church are collecting SOCKS for clients of University Settlement, a non-profit social service agency in the Slavic Village neighborhood of Cleveland. Our sock project is a great opportunity our children to put faith into practice by helping people in need!

Please support our efforts by bringing a pair or two of NEW socks to church on Sundays during Lent. We are collecting socks for men, women, and children.

If you wish, see University Settlement's Amazon wish list and purchase socks online:

Message from our Worship Committee

Hello Forest Hill!

Prior to COVID, when we worshipped in person, many of you were actively involved in serving as lay liturgists and communion assistants. Those activities were meaningful to many of you. We are eager to return to those practices. In review, lay liturgists assist the pastor by leading the call to worship, the opening prayer, and reading the selected scriptures for the day. Those who assist in serving communion speak the words of distribution while passing the bread and juice to those worshippers who come forward in front of the church.

If you are interested in being a lay liturgist during worship, please contact Linda Martin at martin3386@ameritech.net or (216) 280-4049. If you wish to assist in serving communion, please contact Jeanette Nemcek at jet0830@aol.com or (216) 789-6740.

Once we have a list of willing participants Linda and Jeanette will contact you in advance about scheduling, as well as providing you with instructions for these activities. If there are any questions or concerns, please contact Linda or Jeanette.

Per Capita is a set amount of money (apportionment) per member that is paid annually to the Presbytery of the Western Reserve, the Synod of the Covenant, and the General Assembly of the Presbyterian Church (U.S.A.). Per capita covers the ecclesiastical expenses of the denomination: the coordination and

evaluation of mission, and the performance of ecclesiastical, legislative, and judicial functions. Per capita is an opportunity for all members of the Presbyterian Church to participate equally, responsibly, and interdependently by sharing the organizational costs of the larger church.

For more information about per capita, please refer to the PCUSA website at <http://oga.pcusa.org/section/departments/per-capita/frequently-asked-questions/> or email Jeff Smith at jeffsmith2756@gmail.com.

The apportionment of the church for ecclesiastical expenses for 2024 is based upon the membership of FHC as reported as of December 31, 2022, or 368.

Per Capita Apportionment:	Per Active Member
General Assembly	\$9.80
Synod of the Covenant	\$3.25
Presbytery of the Western Reserve	\$24.95
Total to Pay	\$38.00

Of course, we understand that not everyone can afford to pay \$38 per active member in a household. Any amount is appreciated, or no amount is OK. If, on the other hand, you can help assist others pay the per capita apportionment, in addition to your own, that is greatly appreciated as well. When paying please indicate “Per Capita” on the information line of your check or pay online using the “Designate a Special Gift” form and indicate “Per Capita” in the information section.

Thank you for your continued generosity!

CLUTTER: scattered or disorderly collection of things that impede movement or reduce effectiveness.

Forest Hill Church has accumulated too much clutter.

Therefore the Trustees ask for your forgiveness, not your permission, as we sort out items around the church that were given as donations or were left behind from events and programs that have lost their usefulness. We are a growing community and need to make room for the future!

A **FREE TABLE** will be set in Fellowship Hall soon. Help yourself to an item you might put to use. More will be added as we clean house. Items not claimed will be quickly donated.

Thank you for your cooperation. The Trustees

DEATH BY NEONICS (adapted from NRDC by Dave Neff)

Around the world, bees and other pollinators are dying off in droves, with potential long-term impacts to ecosystem health and food security. Scientists are now pointing to a highly toxic and widely used family of pesticides known as neonicotinoids (“neonics” for short) as a primary culprit.

Neonics are a class of synthetic, neurotoxic insecticides that are used on agricultural crops, lawns, gardens, golf courses, and in flea and tick pet treatments. Developed in the mid-1990s, neonics are now the single-most popular insecticide class in the United States.

The reason neonics are bad is the same reason they’re used in the first place—to insects, they’re some of the most deadly pesticides ever created. The problem is that they kill indiscriminately, exterminating not only “pest” insects but also countless [butterflies](#), bees, and other wildlife. In fact, since their introduction, neonics have made U.S. agriculture nearly 50 times more harmful to insect life.

Neonics are considered “systemic” pesticides. This means they can be applied directly to the soil (as a “drench”) around a plant’s roots, or as a coating on a plant seed, which the plant then literally soaks up as it grows. That makes the plant itself—including its nectar, pollen, leaves, stems, and fruit—toxic. What’s worse is that only a small portion of the neonics make it into the target plant, about 2 to 5 percent for most seed coatings, leaving about 95 percent in the soil. Once in the soil, neonics remain active for years, and rain or irrigation water can easily carry them long distances to contaminate new soil, plant life, and water supplies. Given neonics’ widespread use, the result has been vast ecosystem contamination, which we notice most often in water. A [2015 study](#) by the U.S. Geological Survey found neonic pollution in *more than half* of the streams it sampled nationwide.

Neonics also harm much of the wildlife they touch. Studies in just the last few years have linked neonics to [losses of birds](#), the [collapse of fisheries](#), and [birth defects in white-tailed deer](#), to name a few.

Despite the threat to our environment, nothing has slowed the widespread application of these insecticides. Neonics are most often used “prophylactically,” which is another way of saying whether they’re needed or not. So the vast majority of neonic applications—covering hundreds of millions of acres—are treating pest problems that don’t exist. When they do, neonics can actually make those pest problems worse for farmers by killing off beneficial bugs and soil microbes that improve crop health, resiliency, and output.

How massive? Well, beekeepers lost more than [45 percent](#) of their honeybee colonies between April 2020 and 2021, the second-highest losses on record. And honeybees are likely the “canaries in the coal mine” for the 4,000-plus species of native bees nationwide—like the [rusty-patched bumblebee](#). In 2017, it became the first bee in the continental United States to make the endangered species list. This should matter to everyone because wild bees are essential to sustaining the [global food supply](#) as well as the health of entire ecosystems. Human health is not immune--neurological harms like muscle tremors as well as health effects, including lower [testosterone levels](#), altered [insulin regulation](#), and [changes to fat metabolism](#). Peer-reviewed research has even linked exposure to neonics while in the womb to [birth defects](#), such as deformations of the heart and brain.

Unfortunately, [neonics regularly pollute water sources](#) and traditional chlorination treatment typically fails to remove them from tap water. These pesticides also contaminate our food. Neonic residues are found in 86 percent of U.S. honey, and they show up in popular produce

like apples, cherries, and strawberries. And because neonics are actually *in* the fruit and vegetables themselves, they can't be rinsed or peeled off.

Meanwhile, additional research finds that top fruit crops—including apples, blueberries, and cherries—are now [“pollinator-limited” nationwide](#); the gist being that farmers are producing fewer of these crops because of a loss of pollinators. Even where pests are a problem, effective and less harmful substitutes, like [regenerative growing practices](#) or minimum-risk pesticides, are available.

Kate, Kemp and Cindy on Cape Cod

A Race Against Time volunteers make a huge difference in ACP's ability to accelerate and advance MS research. They help us in a variety of roles, from office work to fundraising. Kemp Jaycox has organized many fundraising events in support of ACP over the past two decades, raising close to \$60,000. He recently published his memoir, "A Race Against Time," and the proceeds are split between the ACP and the endowment fund that was set up at the church in his name. Kemp hopes that his life story can inspire others to find resilience and purpose to help them face any challenges they may encounter.
